

SILENCER® Hydraulic Chute Heavy Duty Model

The SILENCER® Heavy Duty model (also available in the extended model) is designed for increased chute life with reinforced construction, modular construction for superior maintenance, and replaceable heavy-duty drop bars. This model can take a beating!

Perfect for heavy usage and larger animal traffic.

Wide body model also available.

*Extended model shown
with optional overhead scale*

Standard Length	100"	Extended Length	132"
Width	48"	Height	93"
Approx. Weight	3095 lbs		
Mainframe	4" x 2" x 3/16", rectangular tubing		
Side Gates	2" x 2" x 1/4", square tubing		
Cylinders	(6) 4 x 2 cylinders, (1) 2 x 6-cylinder, (8) main cylinder pins greaseable		
Head & Tail Doors	Full-opening and fully sheeted		
Overall Outside Length	102"		
Overall Inside Length	91"		
SILENCER Pump Weight	235 lbs.		
Head & Tailgate Height	67 1/2"		
Inside Chute Height	67 1/2"		

Total Width (Doors Open)	67"
Total Width Doors Closed (Including Hydraulic Levers)	59"
Fitted Hoses	Yes
30ft of Extension Hose	Yes
Reinforced Construction	Yes
Primed Before Painted	No
Oil-based Urethane Bearings	Yes
130 Polyethylene Contact Points	Yes
Standard 3 Spool Hydraulic Valves	Yes
Floor	1/4" floor for increased life of chute
Modular Construction for Superior Maintenance	Yes
Replaceable Heavy-duty Drop Bars	Yes
Bearings & Connectors	8 quick-change, re-lube roller bearings — top connectors
